Family #1

This is a large family. The Grandmother has taken in her brother and his 4 girls. Their mother got deported to Nigeria a few months ago. The brother is diabetic and nearly lost his feet, he is wheelchair bound. The three boys were adopted by the grandmother years ago (they were her daughter's kids in foster care at the time).The oldest girl wants to be a professional soccer player (saving $2000 for a full year of soccer camp!)Their house is very small.

Family #2

This was a fully functional family before the pandemic. Mom had a hair salon and lost it. She's a special needs caretaker now but has been off work for over 2 months from surgeries that went bad (hysterectomy) and is on bed rest waiting for another surgery. She really can't do much of anything.
